Summary

As a highly skilled Bilingual Full Stack Developer, I seamlessly merge a robust foundation in nutrition with a prestigious Full Stack Web Development certification from Butler University. Recognized for my expertise, I specialize in crafting exceptionally efficient and user-centric web solutions, consistently adhering to mobile-first design principles. With over 2,000 hours of hands-on experience in web development, I bring a wealth of knowledge and a proven track record of successful projects to the table.

Technical Skills

HTML5, CSS3, JQuery, Javascript ES6+, TypeScript, Java, Bootstrap, AJAX, SASS, Tailwind CSS, Handlebars, React.JS, MySQL, MongoDB, Express.JS, Node.JS, Webpack, Jest, Python, GraphQL, Algorithms, AWS Lambda

Work Experience

Freelance

August 2023 - Present

Full Stack Developer

- Design websites with a focus on client preferences, working closely to understand their vision and objectives.
- Engage in an iterative process, involving clients at every stage for feedback and revisions, ensuring the final website aligns perfectly with their expectations.
- Prioritize user experience, creating websites that not only meet client goals but also provide exceptional usability and engagement for the site's visitors.

Noom, Inc.

December 2018 – April 2022

Virtual Health Coach (Remote)

- Collaborated with clients to establish and monitor healthy goals using problem solving skills.

Butler University Full Stack Developer Certification

- I successfully completed an intensive Full Stack Web Development program, securing the highest grade among all students. This accomplishment underscores my dedication to excellence and learning.
- Throughout the program, I deeply delved into every facet of the web development lifecycle, gaining hands-on experience across various cycles including design, development, and deployment.
- I achieved mastery in Object Oriented Programming, a pivotal skill that empowers efficient and organized coding practices. My proficiency in crafting web applications with exceptional user responsiveness and meticulous requirement gathering further sets me apart.
- Notably, I honed my problem-solving acumen to expert levels, effectively navigating complex challenges while consistently contributing to effective team dynamics.
- My grasp of Progressive Web Apps technology bolsters my ability to create forward-thinking, high-performance web experiences.

Projects

Full Stack Martinez Cakes | Github: github.com/JuanMartinez503/full-stack-cake-website

| Live: martinezcakes.com

- Displays various cake information, options to leave reviews
- Sole Developer
- Cultivated effective time management skills to ensure project milestones were met punctually. Showcased autonomous problem-solving capabilities by efficiently resolving complex challenges.
- Node, Express, MongoDB, React, Bootstrap, Javascript, CSS

Full Stack Pet Social Media | Github: github.com/JuanMartinez503/Full-stack-pet-social-media

| Live: full-stack-pet-social-media-698fb2b195ab.herokuapp.com/

- Create an account, post as your pet(s), and interact with other “pets”.
- Head Developer (this was a group project)
- Mastered teamwork and leadership through fostering a dynamic collaborative environment. Demonstrated adeptness in group dynamics while effectively managing diverse contributions.
- Handlebars, Node, Sequelize, MySQL, Express, Bootstrap, JavaScript, CSS, Tailwind

Full Stack Expense Tracker | Github: github.com/JuanMartinez503/mern-fullstack-expense-tracker

| Live: expense-tracker-mern-2023-3423c6e63a4e.herokuapp.com/

- Real-time calculations and track your remaining budget to help you better understand your spending habits.
- Sole Developer
- Demonstrated strong project management skills by consistently meeting deadlines and meticulously planning the entire project infrastructure. As a result of this efficient planning and execution, I successfully completed the entire project in less than two weeks.
- JSX, MERN stack, CSS/Bootstrap, Javascript, APIs, GitHub

Education

Certification, Full Stack Web Development - Butler University

Indianapolis, IN

Bachelor of Science, Nutrition - University of Southern Indiana

Evansville, IN
