As an aspiring junior software engineer with a developing foundation in full stack development and a passion for coding, I am seeking to begin my career in the tech industry with a dynamic and innovative company.

### **Technical Skills**

- Frontend: *HTML5, CSS, JQuery, Javascript, Bootstrap, AJAX, SASS, Tailwind CSS*
- Backend: *MySQL, MongoDB, Express, ReactJS, Node, Handlebars, Firebase, AWS, Webpack, Jest, Python*

### **Projects**

#### ***Full-Stack Pet Social Media*** | [Repo](#) | [Deployed](#)

*Head Developer*

- Description: Tired of seeing boring humans everywhere you look? Then our brand new social media site is purr-fect for you! This is a full-stack application that allows a user to create an account and post as their pet(s) and interact with other "pets".
- Technologies used: Handlebars, Node, Sequelize, MySQL, Express, Bootstrap, JavaScript, CSS, Tailwind CSS

#### ***Full-Stack MVC Tech Blog*** | [Repo](#) | [Deployed](#)

- Description: My task was to make a CMS-style blog site, where users can publish their thoughts and comments. Users can also update and delete their posts. The website uses custom CSS, Bootstrap 5 CSS, used handlebars for the views section, and JavaScript for the front-end, and Node.js/Express.js for the backend.
- Technologies used: Node, Express, MySQL, Handlebars, Bootstrap, JavaScript, CSS

#### ***Movie Search Engine*** | [Repo](#) | [Deployed](#)

*Head Developer*

- *Description:* The application serves as a movie search engine where the user can search a movie title application. I worked on a team and wrote most of the HTML, CSS, and JavaScript code.
- *Technologies used:* HTML, CSS/Bootstrap, JavaScript/JQuery, APIs, GitHub

### **Work Experience**

**Noom, Inc.**

*Virtual Health Coach (Remote)*

*December 2018 – April 2022*

- Worked collaboratively with clients to establish healthy goals and monitor progress
- Worked collaboratively with a virtual team; Utilized Slack and Zoom
- Heavily utilized interdisciplinary communication skills, relationship-building skills, efficiency enhancement, problem-solving skills, and adherence to timelines and guidelines

## **Education**

### **Butler University**

*Graduation Upcoming in August 2023*

*Full Stack Coding Bootcamp*

- Full Stack Developer Certification

### **University of Southern Indiana**

*Graduated May 2018*

- *Bachelor of Science in Nutrition*
